PROFILE

Aspiring Software Developer and Computer Engineering student with hands-on experience in building full-stack web and mobile applications. Proficient in modern technologies including React, Node.js, and Firebase, with a strong foundation in problem-solving and system design. Passionate about developing scalable, user-centric solutions and continuously expanding technical expertise through practical implementation.

PROJECTS

AI Scam Detection & Cyber Safety Platform (ScamDefy) [🔗](#)

01/2026 – 03/2026

Developed an AI-powered cyber safety platform that detects phishing links, scam messages, and fraudulent websites in real time. The system analyzes URLs and message content using NLP and alerts users about potential threats while explaining the scam pattern in simple language.

Technologies: React / React Native, Node.js, Express.js, Python (NLP), MongoDB/Firebase, REST APIs

FlowCity – Smart Traffic Monitoring System [🔗](#)

12/2025 – 02/2026

Developed a smart traffic monitoring platform that analyzes traffic density and optimizes signal timings to reduce congestion. Integrated real-time data visualization and route insights to support better urban traffic management.

Technologies: React, Node.js, Express.js, MongoDB, Python, Google Maps API

Reusable Document Verification Platform (Prism App) [🔗](#)

03/2026 – 04/2026

Built a secure platform that allows users to verify documents once and reuse them across multiple services, reducing repeated verification and fraud. Implemented authentication, encrypted storage, and controlled access for safe and seamless document sharing.

Technologies: React, JavaScript, Node.js, Firebase Realtime Database, Google Maps API, GPS

EDUCATION

HSC

VIVA College
93%

06/2023 – 03/2024

SSC

National English High School
86.6%

06/2021 – 02/2022

B.Tech in Computer Engineering

Dwarkadas J Sanghvi College Of Engineering
CGPA : 9.67

06/2024 – Present

PROFESSIONAL EXPERIENCE

IETE Info-Tech

Co-Committee Member

08/2025 – Present

Collaborate with the technical team to organize technology-related events, workshops, and competitions for students. Contribute to event planning, coordination, and promotion while supporting initiatives that encourage learning and innovation in technology.

SKILLS

- **Language:** C, C++, Java, JavaScript
- **Web:** HTML, CSS, Tailwind CSS, React
- **App / Backend:** React Native, Firebase, Node JS
- **Tools:** GitHub, Postman, REST API
